

## Argyle® LADIES / ZIP / SCUFF 512709

The Argyle® Ladies Zip Scuff is a lace-up ankle work boot with industrial grade side zip for easy, quick access, abrasion resistant scuff cap toe cover for extra leather protection.

### Description

150mm lace-up ankle boot with quick release side zip and scuff cap.

### Upper Materials

Cowhide water-resistant fullgrain or nubuck leather and stitched in nylon thread. Non-corrosive lacing.

### Toe Cap

200J Safety Steel.

### Lining Materials

This boot is lined with Baltico®, which is a soft, non-abrasive, hydrophobic material that wicks perspiration away from the foot, enabling the skin to remain cool and dry. Fresche Quatlock™, a sustainable and renewable resource, is applied during the manufacturing process to provide antibacterial and antimicrobial protection to the boot.

### Full Innersole

A full length footbed that is inserted into the footwear to offer additional support and comfort. This footbed is made from soft polyurethane that will retain its shape and thickness throughout the life of the boot.

### Insole

Heavy-duty, flexible anti-bacterial non-woven insole.

### Midsole

Directly moulded Polyurethane midsole for greater shock absorption.

### Outsole

Antistatic Thermoplastic Urethane (TPU) outsole for superior wear properties. Heat resistant to 130°C.

### Trisole® Comfort Technology

The Steel Blue soling system is a patented three density soling system that offers a high level of comfort, shock absorbency and energy return. The system uses PORON® as energy absorbing pads under the pressure points of the foot to give the wearer superior comfort and offers similar shock absorbency and comfort to sports footwear.

### True Ladies Fit

Steel Blue's Ladies range is specifically designed to complement the shape of women's feet and include a shorter ankle-length and smaller instep.

## Safety Boot Features
